There are two alcohol classes in Athens that were designed for the diversion program. They are C.A.S.E.P. offered by Flores and Associates, and S.A.A.M.C.O. offered by the Health Recovery Services. The contact information for both of these organizations is below. For a first time alcohol offence for the diversion program you will need to take the 3 hour class. Make sure when calling the organization you ask for their **3 hour class** times as they offer other programs.

Classes are usually only offered once a month by these organizations. The classes are kept small and fill up fast. The earlier contact an agency, the better choice you'll have of dates. By far, the biggest reason for failure of this program is not arranging for the class early enough. Call as soon as possible to reserve a place in a class.
